

Terrorism & Political Violence

A Comprehensive Approach To Evolving Risks

CHUBB®

Why You May Need Dedicated Cover

- There are several potential coverage gaps between standard property, terrorism and political violence policies which may mean your exposures aren't insured
- Government terrorism pool schemes, where they exist, all operate differently leading to a lack of consistency of coverage and terms between countries
- Insurance laws in many countries prohibit the placement of insurance with carriers that are unlicensed locally, meaning local policies may be required

We will underwrite all occupancies and have experience across a wide range of industries, including:

- Retailers, hotels, financial institutions, real estate, energy and power, telecoms, construction, transport infrastructure

Fully Integrated Solutions

Our Multinational Capabilities

Multinational corporations face an increasingly complex compliance burden in respect of diverse local insurance laws.

Non-admitted placements are illegal in some countries, where there may be local insurance tax, compulsory local retentions, cash before cover and other requirements. This can make remitting claims payments complicated, leaving corporations exposed to both financial and reputational risk.

We understand these challenges and are a market leader in helping clients and their brokers design and implement compliant multinational programme solutions that are compliant and perform as expected when a loss occurs.
