

## Protect your cashflow and safeguard your golden years with bespoke home and contents coverage, Chubb Masterpiece®.

Our golden years is the time when we should pamper ourselves and enjoy life to the fullest. Whether it is investing in a new house, indulging in our lifestyle habits or taking a round-the-world trip, we need adequate cash liquidity to make our retirement a reality.

We work hard in our younger days, but are we doing enough to safeguard our cashflow for a comfortable retirement?

### Misconception

*Insurance policies only allow for claims after receiving proof of your repair expenditure.*

**With Chubb Masterpiece®, your cash flow is protected as the policy allows you to make claims even before you start on the repairs.**

### Their Story

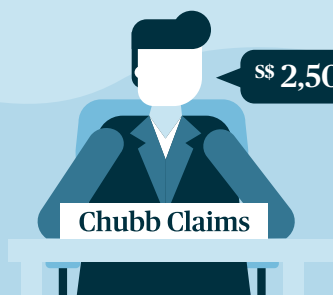

While Ian and Kylie were on holiday, a water pipe burst in their house.

The water ran undetected and flooded the living room. High-end kitchen equipment - built-in refrigerator, convection oven, marble counter tops and all living room furnishings suffered extensive damage.

Ian and Kylie are heartened to be able to enjoy their retirement as planned.

After contacting their Masterpiece claims representative, they learnt that they would receive a S\$2,500,000 payout based on the repairs costs of their home.

Ian and Kylie thought they would have to fork out an unplanned expense of S\$2,500,000 from their retirement savings to repair and replace the damages. This would have a significant impact on their retirement plans.

Premium paid per annum	S\$25,000
Coverage for house, home renovation, home contents & jewellery	S\$12,500,000
Total loss	S\$2,500,000
