

Protect your valuables and safekeep your memories with bespoke home and contents coverage, Chubb Masterpiece®.

Jewellery, watches and bags are valuable possessions, a part of our life story. They may have been handed down generation after generation. Losing these valuables can feel like losing an important part of ourselves.

Our valuables hold so much sentimental worth, but are we protecting them sufficiently?

Misconception

Insurance policies do not cover for items lost through my own negligence.

With Chubb Masterpiece®, you can claim the full value of the lost possession(s), even when it's caused by your own negligence.

Their Story

John realised the engagement ring was missing when he was just about to propose. He couldn't recall where he had misplaced it.

They thought their Chubb Masterpiece Insurance would not cover their ring loss as it was their own fault.

They were relieved that everything could go as planned.
